

OBJECTIVE

Frontend Developer with almost 2 years of experience creating responsive and user-friendly web applications. Proficient in React, Next.js, and Material-UI, focusing on clean, scalable code and enhancing user experience. I am dedicated to delivering efficient, high-quality solutions and collaborating within a team environment.

EXPERIENCE

Frontend Developer	Musketeers Tech	Feb 2023 – Present
<ul style="list-style-type: none">Contributed to developing multiple distinct web applications with unique features and tech stacks.Designed and implemented a comprehensive UI design system library to improve product consistency.Developed highly responsive web pages ensuring compatibility across different browsers and devices.Gained valuable experience in remote work and collaborated with team members across time zones.Javascript, Next.js, React, Material UI, Ant Design, Bootstrap, Git		
Intern Frontend Developer	Finx Digital	Nov 2022 – Jan 2023
<ul style="list-style-type: none">Developing dynamic web applications that are optimized for a diverse range of devices and browsers.Implementing responsive design and ensuring cross-browser compatibility across various screen sizes.testing of web applications to guarantee they are bug-free and function seamlessly for end-users.Javascript, React, Material-UI, HTML5, CSS3, Git		

PROJECTS

Food Delivery App

- Developed a food delivery application with separate User and Admin Panels using the MERN stack.
- Implemented complete CRUD operations for managing food items and orders.
- Implemented robust authentication and authorization for both panels to ensure security and reliability.
- Created a user panel that features browsing, cart management, and Stripe integration for ease of use.
- Tools/Technologies:** React, Material UI, Express, MongoDB, Stripe, Multer, Bcryptjs, body-parser, cors, Dotenv, JSON web token, mongoose, Axios

Story Magician

- Developed a responsive web app using Material UI with custom themes and styles for a modern experience.
- Implemented an engaging flipbook feature using PageFlip for smooth, interactive storytelling.
- Added advanced text-to-speech functionality with Microsoft Speech SDK for enhanced user accessibility.
- Enabled efficient story-sharing and quick download options for easy content export and sharing.
- Integrated Stripe seamlessly on the front end for subscription management and secure payment processing.
- Delivered a high-performance application with full cross-browser compatibility and responsive design.
- Tools/Technologies:** React, Material UI, PageFlip, Microsoft Cognitive Services, Stripe API, Context API, Axios

Stickball

- Led the redesign of projects within Stickball, ensuring a responsive interface using Material and Bootstrap.
- Managed and optimized code, improving performance and reusability of components across the apps.
- Integrated third-party APIs using Axios and React Query for efficient data handling and state management.
- Delivered a seamless experience across devices by applying modern design principles and best practices.
- Delivered a high-performance application with full cross-browser compatibility and responsive design.
- Tools/Technologies:** React, Material UI, Bootstrap, fetch API

Asian Wok Restaurant

- Built a highly responsive web app with Material UI and custom themes for a modern user experience.
- Seamlessly integrated EmailJS for automated reservation confirmations and Google Drive for form storage.
- Implemented reusable components to optimize development speed and maintain code for future scalability.
- Applied clean, maintainable code practices, ensuring a high level of performance and ease of maintenance.
- Delivered a fully responsive application with cross-browser compatibility and smooth user interactions.
- **Tools/Technologies:** Next.js, Material UI, EmailJS, Google Drive API, JavaScript, Formik, Yup

Musketeers Portfolio Website

- Developed a responsive design for mobile and desktop using React, later migrating to Next.js
- Implemented server-side rendering (SSR) to enhance SEO and improve performance.
- Applied various visual effects to enrich the user experience, ensuring a smooth and interactive UI
- Built a highly responsive web app with Material UI and custom themes for a modern user experience.
- **Tools/Technologies:** Next.js, Material UI, Axios, Stripe Apis, Axios, Formik, Yup

Noonan Portfolio website

- Developed a golf portfolio website using React and Material UI for a modern and intuitive interface.
- Utilized Formik and Yup for form validation, ensuring robust input handling and smooth user interaction.
- Integrated Sanity API to display dynamic blog content and streamline updates.
- Delivered a fully responsive experience across devices, focusing on performance and usability.
- **Tools/Technologies:** React js, Material UI, Formik, Yup, Sanity Apis, fetch API

EDUCATION

Faisalabad, PK	University of Agriculture	Fall 2017 – Spring 2021
<ul style="list-style-type: none">• Bachelor of Science in Software Engineering, Spring 2021• Coursework: Data Structures & Algorithms; Databases; Artificial Intelligence; Linear Algebra; Networking; Parallel & Distributed Computing; Web Development; Theory of Automate;		

LANGUAGES AND TECHNOLOGIES

Technologies: HTML, JSX, CSS, Sass, JavaScript, ES6, React JS, Next JS, Bootstrap, Material UI, Ant Design, Tailwind CSS, Redux, Redux Toolkit, Email JS, Axios, RESTful APIs, React Query, Node JS, Express JS, MongoDB

Tools: VS Code, Teams, Slack, Hubstaff, Notion, Postman, Git, GitHub, Insomnia, Mattermost, Figma, Apidog
